ROBERT HARM

GAME DESIGNER

PROFILE

Passionate Game Designer skilled in Unreal Engine and Blueprints, with experience in developing engaging game mechanics, asset integration, and user interface design. Combines technical expertise and creativity to deliver immersive player experiences. Currently pursuing a Bachelor's Degree in Game Design at Full Sail University.

WORK EXPERIENCE

- Capstone Project** 2024 - PRESENT
Lead Programmer - Game Designer - UI Designer
 - Designed a survival horror game using Unreal Engine 5 Blueprints, focusing on stealth mechanics and environmental puzzles.
 - Developed an AI system that tracks players based on sound, enhancing tension and challenge.
 - Implemented a dynamic sanity meter system affecting visuals and lighting, creating immersive gameplay. Collaborated with a 3D artist for character models
- Side Scroller Project** 2024 - 2024
Game Designer - Programmer - Level Design
 - Designed engaging levels, incorporating challenging obstacles and enemy encounters to create a cohesive player experience.
 - Programmed core gameplay mechanics, including player movement, interactions, and unique platforming elements.
 - Collaborated with team members to ensure smooth asset integration and consistent game flow.

WORK EXPERIENCE

- Gas Leak Survey Technician**
Heath Consultants | May 2024 - Present
 - Conduct gas leak surveys and inspections, ensuring compliance with safety standards and protocols.
 - Utilize advanced detection equipment to identify and document leaks, providing accurate reports and recommendations.
 - Collaborate with utility providers and team members to maintain operational safety and efficiency.
- Commercial Pest Control Technician**
Terminix | 2021 - 2024
 - Delivered pest control services in compliance with safety standards, maintaining client satisfaction and safety.
 - Conducted inspections and maintained a professional company image.
- Installation Tech**
Sound By Design | 2019 - 2021
 - Installed advanced audio-visual and smart home systems, including Control 4 and home automation solutions.
